Questions for Professor Mah Wah Wong Office hours

- MATH 3271 3.0 Section A: Partial Differential Equations
- MATH 3410 3.0 Section A: Complex Variables  
[I can take complex variables, as discussed with mommy]
- MATH 2270 (Differential Equations) [!?
- MATH 2310 (Calc III) ✓ (Take in Fall 2020)

✗ H13D01

- What is the textbook used for complex variables? Can I see it please
- When are assignments usually due? How many assignments?

[Chapter 1-18]

- Do you get to choose if it is (a) or (b), prefer (a)?
- What chapters are covered in the exam?

- So I drop linear algebra II & take complex variables, ok. (20%)
- Do you still have the old grading scheme like MATH 1013, such that if I do better in the final, the whole weight is in the final?
