

The start of the $\{air2018\}$ Topological Group (Pendlebury)

Note: Third-Party hosted sites Usually treat my content as SPAM [which of course is NOT]

The $\{air2018\}$ Topological Group is the project that wishes to document the beauty of the mathematics content delivery network (CDN) and all it encompasses. This group is unfortunately hosted on third-party servers such as wordpress, image and so on. Details for each group are shown below.

image \Rightarrow Image will show the group logo and some descriptions on what ~~shameless~~ blah, blah, blah

The topological group is mainly a documentation of my life, it has many different websites and I try to keep all my content consistent in between each and every site.

The topological group in specific $\{air2018\}$ is a feeder group. It will contain almost all material on the group and this group is part of a manifold. Talk about Archiving \rightarrow locking Archiving \rightarrow 2FA Phone.

How to set up and ~~blah blah blah~~

Homework Assignments due (to do list) [Done on Monday 27 January 11:19 pm]

Differential Equations	Complex Analysis	Physics	Economics (ECON 1010)
1) Webersign 2	1) Assignment 2	1) Pearson Assignment 2	1) Quiz (MEX3)
2) Practice Problem 2	Questions:	2) LABS this week	2) Quiz
3) Test NEXT Mon	moving info to particular robots.txt		3) ECON 1010 Practice test
			4) EXAM Schedule 15

Meeting with Raymond

- To show NEW checklist
- To show my Transcript
- Summer date add/drop

Meeting with Susy

- To show NEW checklist
- To show my Transcript
- Summer date add/drop

February Begins

- Print 20 (1X12) copies

1) Pens ready (schedules)

2) Milk ready

3) Paper ready (11X17, 15X17)

4) EXAM Schedule 15

5) EADY (A)

$$X(t) = \tan\left(8t + \frac{3\pi}{8}\right)$$

The Gauss law and Maxwell Equations are ready
