

The plan to start the 3-jarvis Topological group

This week is the second week of classes & all the courses (except physics 140) has released all their mid term dates. Hopefull Alt-examinations <sup>(;•••;)</sup> does see it and put me in my desired timeslots for these courses. Sacy can I please request you to print them out in 11x17 please. Passwords and Accounts transfer started for 19/01/2018

Meeting with Professor Ozy Mernut.

① Talliced with professor 0222 about why ~~I~~ I am worried, the answer was obviously clear, I was memorising and not learning the content. ② My mind is plastic, it is able to mold itself and adapt to new things | I just don't wanna do it.

DON'T PLAY WITH Minecraft.

## Meeting with

1) Continue to experience push back and <sup>in the MATLAB</sup> raise my concern to my professor if a graduate student is unable to solve a math problem, how do you expect a undergraduate like me to solve it

2) Put ALL

2) Put ALL

10 de list

weell string

- 1.
- 2.
- 3.
- 4.
- 5.

Prepare a list before during a monthly calendar & then plot all the ~~monthly~~ (daily) events into the calendar.

Saturday

Saturday  
1:30pm

I need to find the motivation to do things, ~~the~~ Raymond reminding me doesn't help

Create your task schedule list for the following week

# Getting Preparation

## Meeting with Raymond

I prefer Raymond then the new people that replaced Dana as they are still new and learning like me. Nobody wants to learn from a noob. I must say Raymond is very insightful and will help me if I need help.
