The plan to start the {jair2018} Topological group

This week is the second week of classes & all the courses(except physics 140) has released all their mid term dates. Hopefully Alt-examinations does see it and put me in my desired timeslots for these courses. Sure can I please request you to print them out in 1X17 please.

Passwords and Accounts transfer started for jair 2018

Meeting with Professor Ozzy Memut-

- ① Talked with professor Ozzy about why I am worried, the answer was obviously clear, I was memorising and not learning the content. ② My mind is plastic, it is able to mold itself and adapt to new things [I just don't wanna do it.]

DON'T PLAY WITH Minecraft.

Meeting with in the MATLAB my concern to my professor if a graduate student is unable to solve a math problem, how do you expect a undergraduate like me to solve it

2) Put ALL

TO do List
1. week starting
2.
3.
4.
5.

Prepare a list before during a monthly calendar & then plot all the monthly(daily) events into the calendar.

- Saturday
- I need to find the motivation to do things, ~~the~~ Raymond reminding me doesn't help
- 1:30PM
- Create your task schedule
- List for the following week

Getting preparation

Meeting with Raymond

I prefer Raymond then the new people that replaced Dana as they are still new and learning like me. Nobody wants to learn from a noob. I must say Raymond is very insightful and will help me if I need help.
