

Note: Third-party hosted sites usually treat my

start of the year 2018 Topological Group (Perimeter)

Content as SPAM [which of course it's Not]
 Me basis of this is that they are run on
 HDD Servers and don't want to be a

 Network (CDN)]
 id all it encompasses. This group is unfortunately hosted on third-party servers such as wordpress, imgur and
 thumb... Meaning these sites can be banned, restricted and so on. Details for each group are shown below.

e topological group is mainly a documentation of my life, it has many different websites and I try to keep all my
 intent consistent between each and every site.

You wonder why people don't answer emails on Saturday & Sunday
 topological group in specific [fair 2018] is a feeder group. It will contain almost all material on the group and this group is
 part of a manifold. Talk about Archiving \rightarrow locking Archiving \rightarrow Permanent lock using 2FA Phone.
