

12b-pdf

Meeting with

- 1) Continue to experience push back and raise my concern to my professor if a graduate student is unable to solve a math problem, how do you expect a undergraduate like me to solve it
- 2) Put All

This week is the second week of classes & all the courses(except physter 140) has released all their mid term dates. Hopefully Alt-examinations does see it and put me in my desired timeslots for these courses. Surey can I please request you to print them out in lxx17 please.

Meeting with Professor Ozzy Mennut-

I talked with professor Ozzy about why I am worried, the issue was obviously clear, I was memorising and not learning the intent. ② my mind is plastic, it is able to hold itself and adapt new things [I just don't wanna do it.]

[DON'T PLAY WITH Minecraft.]

- I need to find the motivation to do things, ~~the~~ Raymond reminding me doesn't help
- Saturday
1:30pm
Create your task schedule list for the following week

Getting Preparation

- I prefer raymond then the new people that replaced Dana as they are still new and learning like me. Nobody wants to learn from a noob. I must say Raymond is very insightful and will help me if I need help.
