

Time	Monday	Tuesday	Wednesday	Thursday	Friday	Sat	Sun
8:00 - 8:30							
8:30 - 9:00	<u>SC MATH 2030 3.0</u> Section B Term F Lecture [MH B]		<u>SC MATH 2030 3.0</u> Section B Term F Lecture [MH B]		<u>SC MATH 2030 3.0</u> Section B Term F Lecture [MH B]		
9:00 - 9:30							
9:30 - 10:00							
10:00 - 10:30							
10:30 - 11:00							
11:00 - 11:30							
11:30 - 12:00	<u>LE EECS 1560 3.0</u> Section A Term F Lecture [CLHB]						
12:00 - 12:30							
12:30 - 13:00	<u>SC MATH 2310 3.0</u> Section A Term F Lecture [CLHG]	<u>SC PHYS 1410 6.0</u> Section A Term Y Tutorial 01 [LASA]	<u>SC MATH 2310 3.0</u> Section A Term F Lecture [CLHG]				
13:00 - 13:30							
13:30 - 14:00							
14:00 - 14:30							
14:30 - 15:00							
15:00 - 15:30							
15:30 - 16:00							
16:00 - 16:30							
16:30 - 17:00							
17:00 - 17:30							
17:30 - 18:00	<u>SC PHYS 1410 6.0</u> Section A Term Y Lecture [VC 135]	<u>SC PHYS 1410 6.0</u> Section A Term Y Lecture [VC 135]	<u>SC PHYS 1410 6.0</u> Section A Term Y Lecture [VC 135]				
18:00 - 18:30	<u>Dropped Course</u>	<u>Dropped Course</u>	<u>Dropped Course</u>				
18:30 - 19:00							
19:00 - 19:30							
19:30 - 20:00	<u>SC PHYS 1410 6.0</u> Section A Term Y Laboratory 10 [BC 102D]						
20:00 - 20:30							
20:30 - 21:00							
21:00 - 21:30							
21:30 - 22:00							
22:00 - 22:30							

Finished.

Missed

Class, I was

so do es red due

to face book studing,

wake up at 9am

Went through

$$f(t) = \langle v(t), w(t) \rangle$$

$$\text{then } f'(t) = \langle v'(t), w(t) \rangle$$

$$+ \langle v(t), w'(t) \rangle$$

$$= 2\langle v(t), w(t) \rangle$$

$$+ \langle v'(t), w(t) \rangle + \langle v(t), w'(t) \rangle$$

$$= 2\langle v(t), w(t) \rangle + \langle v'(t), w(t) \rangle + \langle v(t), w'(t) \rangle$$

$$= 2\langle v(t), w(t) \rangle + \langle v'(t), w(t) \rangle + \langle v(t), w'(t) \rangle$$

$$= 2\langle v(t), w(t) \rangle + \langle v'(t), w(t) \rangle + \langle v(t), w'(t) \rangle$$

$$= 2\langle v(t), w(t) \rangle + \langle v'(t), w(t) \rangle + \langle v(t), w'(t) \rangle$$

$$= 2\langle v(t), w(t) \rangle + \langle v'(t), w(t) \rangle + \langle v(t), w'(t) \rangle$$

$$= 2\langle v(t), w(t) \rangle + \langle v'(t), w(t) \rangle + \langle v(t), w'(t) \rangle$$

$$= 2\langle v(t), w(t) \rangle + \langle v'(t), w(t) \rangle + \langle v(t), w'(t) \rangle$$

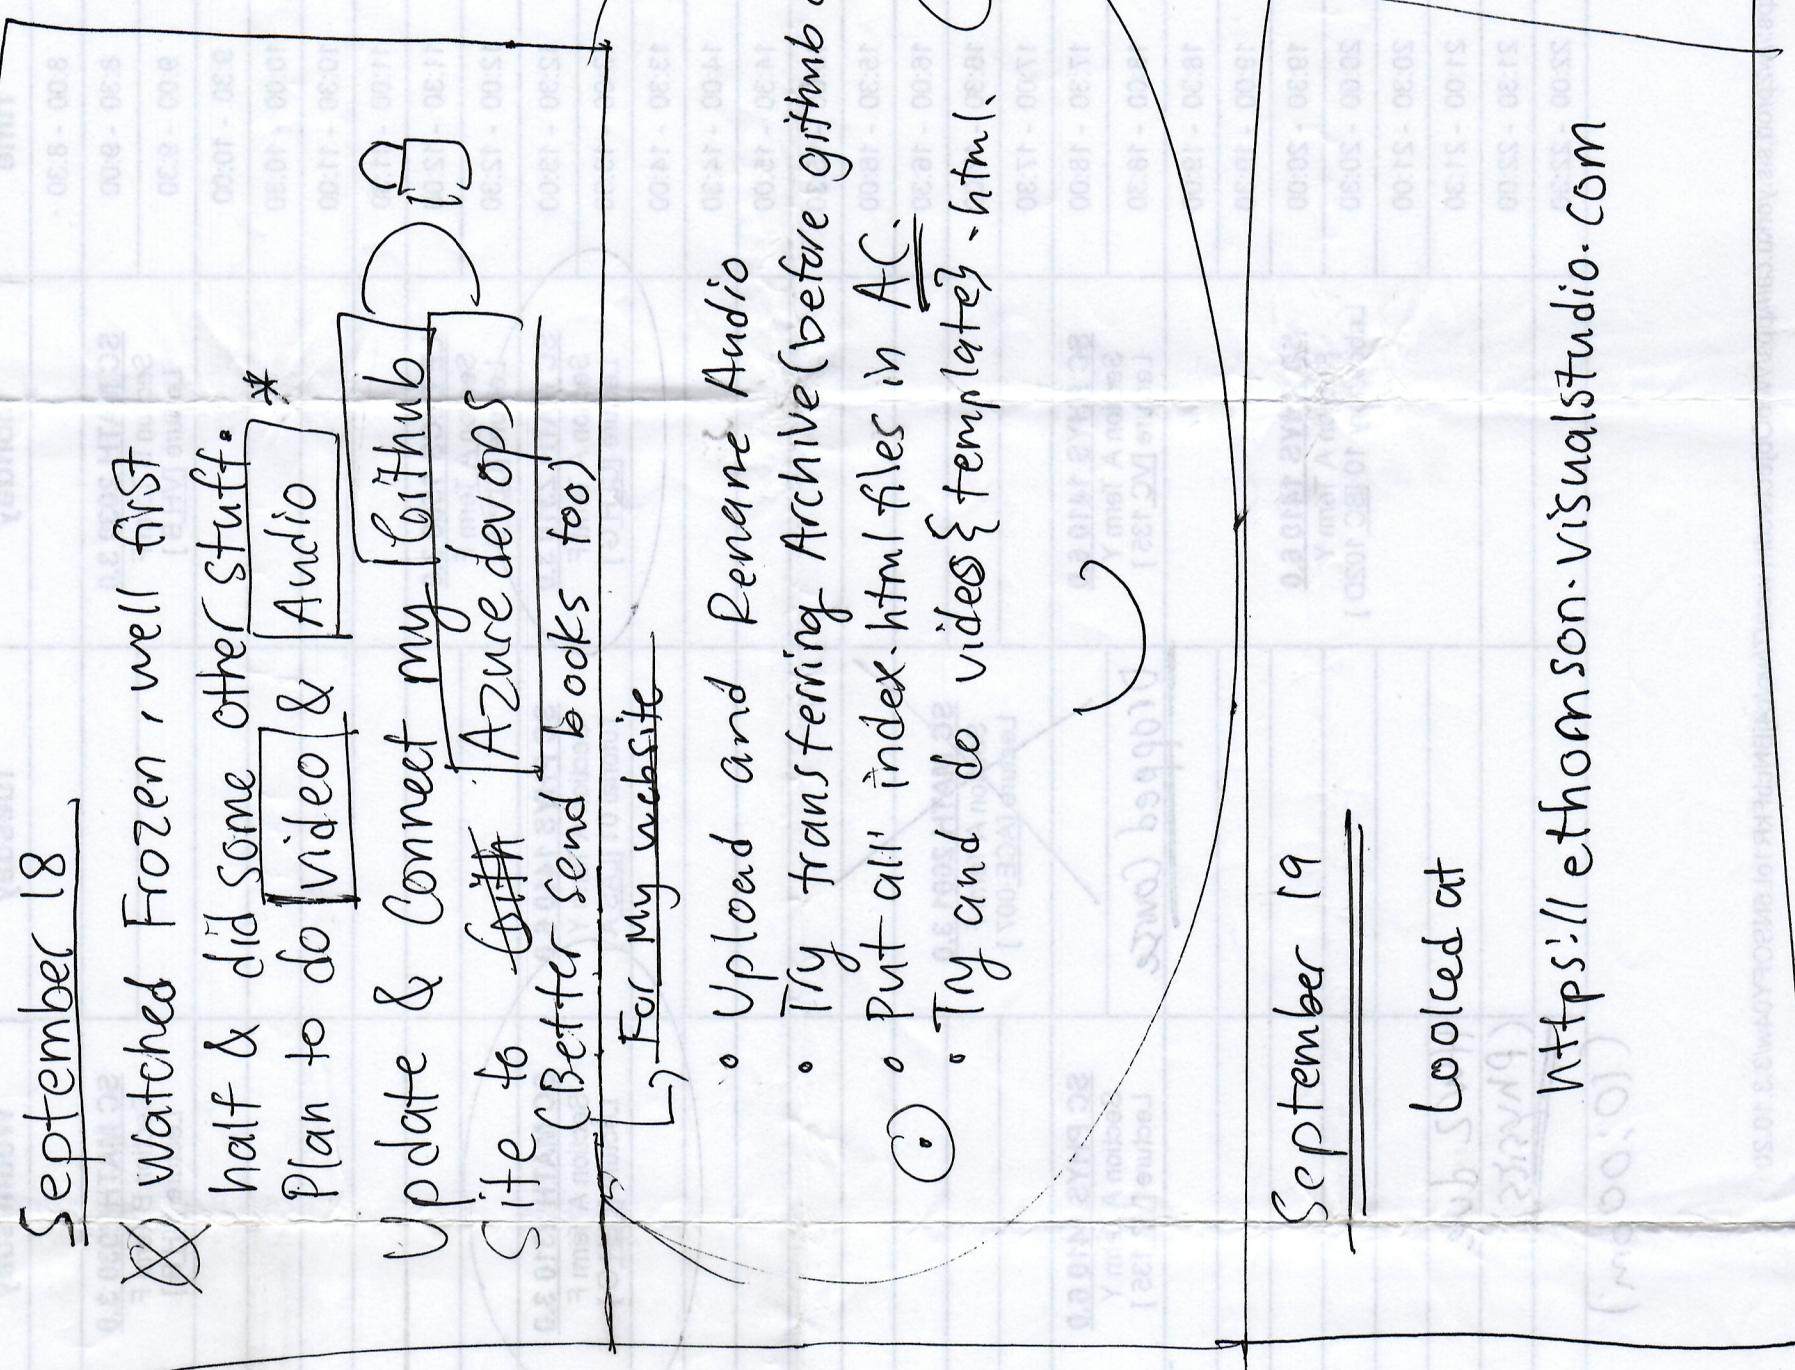

03b.pdf

September 16

- ✗ Get to change my programme to Specialised Honours in Applied Math to only Honours in Mathematics (well now does not need to take Real Analysis I & II)
- ✗ Meet Min and talk about next phases of my academic plan, now

phases of my academic plan, now

talked to Claudio about converting DUDS to -mp4 files and how to do it

September 17

- ✗ Talked to Professor Paul Delany, then talked to about Mastering Physics, who marked it (it machine marked) & labs (TA was OK but lets see my marks).

September 19
