Questions for Professor Mah Wah Wong Office hours

MATH 3271 3.0 Section A: Partial Differential Equations)

MATH 3410 3.0 Section A: Complex Variables

[I can take complex variables, as discussed with mommy] -> MATH 2270 (Differential Equations) [] -> MATH 2310 (Calc III) (Take in Fall 2020) (

1/1

What is the textbook used for complex variables? Can I see it please

when are assignments usually due? How many assignments? Do you get to choose if it is (a) (a) or (b), prefer (a) come? Pot master? · What Chapters are covered in the exam?

- So I drop linear algebra II & tale complex variables, ok. (20%)
- Do you still have the old grading Scheme like MATH 1013, such that if I do better in the final, the whole weight is in the final?
